ARMY OFFICER A SUICIDE

Lieutenant Sutton Ends His Life With a Revolver.

Annapolis, Md., Oct. 14.—Second Lieutenant James N. Sutton, Jr., United States marine corps, is dead at the naval academy marine barracks, his death resulting from a 32-caliber bullet fired into the right side of the head. A board of inquiry detailed by Superintendent Badger of the naval academy has prepared a report which will be submitted to the navy department.

Sutton, in company with Second Lieutenants R. E. Adams and E. P. Roelker, returned to the marine camp at 1:30 o'clock a. m., after having attended a dance given at the academy. Shortly afterward Sutton is said to have been discovered on the road near by with a revolver in his right hand and several fellow officers attempted to disarm him. This they succeeded in doing, but not before the weapon was discharged in some manner and Lieutenants Adams and Roelker received slight wounds. Quick as a flash, it is said, Sutton took from his blouse another revolver and with this fired the fatal shot into his brain.

Lieutenant Sutton was twenty-two years old and the son of James N. Sutton of Portland, Ore. He was formerly a midshipman of the present senior class, but resigned in his third class year.

TWO BROTHERS SHOT.

One of Them Killed and the Other Seriously Wounded.

Demopolis, Ala., Oct. 14.—Matt Gandy, a young white farmer, is dead and his brother, O. D. Gandy, is seriously wounded as a result of a shooting affray which occurred in front of their home at Hall's Creek. Marvin and John Tutt, farmers of the same community, are in jail charged with the crime. The Tutt brothers, it is said, rode up to the house in a buggy and inquired for the Gandys. As the Gandlay boys started to the buggy the Tutts opened fire. Matt Gandy was killed instantly and O. D. Gandy was wounded in the legs and hips.

The two families had been at outs for some time.

Mexican Officer Commits Suicide.

El Paso, Tex., Oct. 14.—Discouraged by ill-health, General Ifivero Rojan, commandant of the Bravos district of the Mexican army, committed suicide in his quarters at Juarez by shooting himself in the head with a pistol.

SMALL IS SUSPENDED

President of the Telegraphers' Union Is Ousted.

HIS POLICY IS UNPOPULAR

Striking Telegraphers in Chicago and New York City Repudiate Their President and His Programme. Want to Continue the Struggle.

Chicago, Oct. 14.—At a meeting of the executive committee of the National Telegraphers' union Sunday night President S. J. Small was suspended.

The following message was sent to President Small by the executive committee:

"Under article 15, section 7, of the constitution of the Commercial Telegraphers' Union of America, you are hereby suspended from the office of president, to take effect immediately."

President Small and his suggestion that a vote be taken on the question of calling off the strike were repudiated by members of the Chicago local union at a meeting Sunday afternoon. A resolution that the strike be continued was unanimously adopted.

The meeting was followed by a demonstration of strength by the striking operators before the offices of the telegraph companies. The men marched in double file in the streets shouting "Stick, Stick," and otherwise voiced their opposition to the surrender suggested by President Small.

WILL CONTINUE THE STRIKE

New York Operators Opposed to Small's Policy.

New York, Oct. 14.—The New York local of the Commercial Telegraphers' union, at a meeting Sunday, voted unanimously to continue the strike against the Western Union and Postal Telegraph companies.

The vote was taken upon the suggestion of President Small, who in messages to subordinate officers Saturday pointed out the inability of the general assembly to further finance the strike and recommended that locals in the various cities vote upon the advisability of the men returning to work.

The meeting was characterized by bitter exchanges between President Small and the other speakers. The latter charged the national leader with inconsistency in first claiming that the strike would be successfully financed and then admitting that the general assembly was without funds and with having conducted the fight in a half-hearted, dilatory way. Small tried to explain his position, but was frequently interrupted by hisses. When he suddenly left the hall in the midst of the speechmaking, cries of "resign" followed him. Sunday night Small issued a statement in which he said he was willing to continue the strike if the men insisted.

When the meeting opened President Small was given the floor and said:

"I am not here to make an argument for or against continuing the strike, but merely to explain why I called for a vote of the locals on the proposition. Saturday Commissioner Neill informed me that President Clowry had told him that further negotiations were futile. I believe what they say. Our funds are quite exhausted. As you know, we were unable to make a payment to you yesterday. There are no more in sight. These are the facts; you can do as you will."

Thomas Criticises Small.

Percy Thomas, former national deputy president, followed Small, saying that the latter had said when the strike began that he could raise $2,000,000 to support it. Small, he said, had asked him thirty days ago to send out the word "no funds," but the speaker refused. He continued:

"President Small has utterly neglected to properly approach the subject of raising money, and now he comes before you and tells you that we have no more money. This strike cannot be lost if we have a leader, a national president with any ability."

There were cheers for Thomas and as Small rose to reply, shouts of "resign" greeted him.

"I have no intention of resigning," he said, when he could be heard. "To resign is the last thing that I will do, and I want to tell you that personal attacks on me won't get you bread and butter.

"As for assessments of other labor organizations, I want to tell you what they amount to. The Order of Railroad Telegraphers, with a membership of 40,000, was assessed first $2, then $1, has turned in about $32,000. From the 27,000 locals of the American Federation of Labor we have received about $25,000. I have come here to state facts and to tell you of your position. Do what you will."

As Small sat down, Daniel Russell, chairman of the local board of strategy, sprang to his feet. "Up to last night," he said, "this was Small's strike; and up to last night he did everything he could to lose it. Today it is your strike. Keep it up and win. He alone brought on the strike and now he is trying to repudiate it."

Other speakers followed in a similar vein, after which were adopted resolutions declaring that the strike be continued and calling upon the national executive committee to remit at once $3,000, the New York local's share in the general treasury, and requesting the appropriation of the insurance fund for strike purposes.

YOUNG WOMAN MURDERED

Minneapolis Man Suspected of Having Killed His Wife.

Minneapolis, Oct. 14.—Choked to death, Mrs. George Patous, the seventeen-year-old wife of George Patous, a Polish laborer, was found lying on a bed in an upstairs room at 1215 Third street north, Sunday morning. Patous has not been found and the police believe him to be the murderer of his wife.

The woman's body was found by W. A. Shaughnessy, who rented a room to Patous and his wife. She is believed to have been dead since Sunday night, Oct. 6.

There had been no signs of lifee in the Patous room for a week, and Shaughnessy becoming alarmed entered the bedroom Sunday morning to find the strangled body of the girl lying across the bed. The condition of the body indicated that she had been strangled. A silken muffler tied tightly about the swollen throat showed the murderer took no chances. Patous has not been seen since Sunday night, Oct. 6, and a search of the apartment showed that all of his personal belongings are missing.

Shaughnessy reported the matter to the police and Patrolmen Ginsberg and Gus Anderson hurried to the house, while Detectives Brundage, Bezanson and Passolt were detailed from the central station.

The patrolmen found that the young woman first had been choked into unconsciousness and then to make sure of his job the murderer had taken a silk muffler and tied it tightly about the girl's throat. Imprints of a man's fingers can be seen on the compressed throat of Mrs. Patous.

Her body was lying diagonally across the bed. She was dressed, showing that the crime probaly was committed before retiring on Sunday night a week ago. A dirty quilt had been thrown over the body, leaving only the face exposed.

There were spots of blood on the pillow and mattress. These may have been caused by the blood coming from the smothered woman's nose and mouth. They are so numerous that it is thought the dying wife fought her assailant with such violence that he was wounded enough to bleed.

AMBUSHED BY INDIANS.

One Mexican Killed and Another Fatally Wounded.

San Antonio, Tex., Oct. 14.—A special to the Express from Guaymas, Mex., says:

Jesus Brocamento and Ricardo Robles, members of two of the wealthiest families in this section, were ambushed by a band of twelve Yaqui Indians, Brocamento being killed outright and his companion fatally wounded. The attack occurred about twenty-five miles from this place and in the vicinity of the Lacorodo mining camp. The Indians escaped after robbing their victims.

A large detachment of soldiers is on the trail of the Indians.

Suffocated by Gas.

St. Paul, Oct. 14.—Carl Pein, who recently arrived in St. Paul from Tacoma, Wash., was found dead in his room here from gas poisoning. He apparently had been dead some hours. The body was clothed in night garments and there was no evidence of his having struggled to get to the door. Acting Coroner Maloney investigated the case and it is his opinion that the man died accidentally from asphyxiation.

SIX PERSONS KILLED

Father and Five of His Children Die by Fire.

TRYING TO SAVE CHILDREN

Glove Cutter Perished in Endeavoring to Rescue Imperilled Offspring—Husband and Wife Killed by a Trolley Car Near Hopkins, Minn.

Gloversville, N. Y., Oct. 14.—Six members of the family of Solomon Frank, a glove cutter, the father and five daughters, were suffocated by smoke when their home was destroyed by fire. The dead are:

Solomon Frank, aged forty years; Sarah, twenty-one; Dora, nineteen; Rosa, seventeen; Minnie, twelve, and Mary, ten.

The father lost his life in endeavoring to save his children, following the discovery of the flames by the mother, who, with two small sons, made her escape. The bodies of the other victims were found by the firemen. All had evidently made an effort to reach the windows.

The oldest daughter was to have become a bride early in December and there was a social gathering at the home of the family in celebration of the approaching nuptials. The gathering broke up about 1 o'clock in the morning and at 1:30, when all had retired, the fire was discovered. The origin is unknown, though it is believed to have been due to a defective chimney.

TWO KILLED BY TROLLEY CAR

Husband and Wife Meet Death Near Hopkins, Minn.

Minneapolis, Oct. 14.—John Tracey and his wife, in their buggy, were struck and killed by a street car of the Deephaven line. Mrs. Tracey died half an hour after the accident and her husband three hours later. Their little adopted daughter, Mattie, about seven years old, was with them in the buggy and escaped with slight injuries. The accident happened at Mendelsohn crossing, a short distance from Hopkins.

The car was being driven by Motorman Larson, an old employe of the company, and according to the account of the passengers he used his best endeavors to bring the heavy car to a standstill in time to avoid the collision. The Tracey buggy was being driven south and the car was approaching in the direction of Hopkins. The whistle was blown in warning.

According to the story of the motorman Tracey had time to get his buggy across the tracks, but for some unknown reason the horse stopped. It is thought the driver became confused. The buggy stood across the track. The car struck it and hurled the occupants to the ground. The buggy was smashed to bits.

MERCHANT KILLED BY AUTO

Purchased New Machine and Was Taking His First Ride in It.

Morenci, Mich., Oct. 14.—Arthur Onweller, a merchant of Lyons, O., was killed in an automobile accident five miles east of this city. Mr. Onweller had purchased a new automobile and was taking his first ride in it. His wife and two children were in the machine with him. While driving at fair speed he lost control of the machine in some way and it ran into a deep ditch, turning turtle and crushing him to death beneath it. Mrs. Onweller and one of the children, a boy, were seriously hurt. The boy was internally injured and has a broken arm.

THREE MEN ARE DROWNED

Barge Saxon Strands North of Cape Hatteras.

Baltimore, Oct. 14.—A dispatch from Cape Henry to the Maritime Exchange here says:

Barge Saxon, lumber-laden, and which was being towed by steamer Katahdin from Georgetown, S. C., to New York, stranded thirty miles north of Cape Hatteras at midnight Oct. 12. The captain and two men of the barge were drowned. One man, Fred Lunt, managed to reach the shore and was picked up by the lifesavers. The barge appears to be full of water with the sea washing over her and the deck load of lumber is coming ashore.

Congressman Slemp Dead.

Big Stone Gap, Va., Oct. 14.—Campbell Slemp, member of congress from the Ninth district of Virginia, died Sunday of angina pectoris. He was the only Republican member of the Virginia delegation in congress.

Mitchell to Undergo Operation.

Springfield, Ill., Oct. 14.—John Mitchell, president of the United Mine Workers, has entered the hospital at La Salle, Ill., and it is understood that he will submit to an operation for appendicitis.

Silk Waists

¶ Before you go to the trouble necessary to have a black or colored silk waist made see the beautiful ones we are offering. These are tailored and posess that matchless style always found in a waist of this character. ¶ We do not submit but one style for your inspection but a number of them—various styles to suit the taste of all. ¶ We do not think that you'll object to the prices for they are priced so very reasonable that you'll be satisfied, we are sure.

H. F. MICHAEL CO.

NEW CHANNEL COMPLETED

One of the Biggest Projects Undertaken on the Great Lakes Finished.

Sault Ste. Marie, Mich., Oct. 14.—Water was turned into the new channel of the St. Marys river at West Neebish Sunday, marking the completion of one of the biggest projects undertaken on the Great Lakes since the building of the Poe lock. The new channel is over two miles in length, 9,000 feet of which is cut through solid rock.

The channel is 300 feet in width, with a depth at minimum stage of water of 22 feet. It is located eighteen miles below the Soo and lies to the west of Neebish island. The present channel is to the east of the island. This old channel will hereafter be used solely for up-bound boats, the heavily laden down-bound boats using the new waterway, which has none of the sharp turns that are embarrassing to the modern 600-foot freighters. The new channel will not be formally opened to navigation until spring. The project has cost upwards of $3,000,000.

Robbers Make a Rich Haul.

Houston, Tex., Oct. 14.—Early Sunday morning the safe of the Kirby Lumber company at Silsbee was robbed of $7,500, the funds of Paymaster T. H. Hunter, who deposited the cash for safe keeping, intending to pay off at Village Mills Monday. The money stolen is part of the funds controlled by federal court receivership under direction of Judge Walter T. Burns.

G. D. LaBar, President. F. A. Farrar, Cashier.
G. W. Holland, Vice President. Geo. H. Brown, Ass't Cashier.

THE DAILY DISPATCH

By Ingersoll & Wieland

SUBSCRIPTION RATES

One Month..... Forty Cents
One Year, strictly in advance, Four Dollars

Office in Dispatch Building on 6th St., opposite the Post Office.

Entered at the post-office at Brainerd, Minn as second class matter.

MONDAY, OCTOBER 14, 1907

THE eagles have been swooping down on the coppers at Duluth and attempting to carry them off bodily. They have got one going there now that beats any bear story they ever put up.

IF Teddy doesn't kill a bear pretty quick the local nimrods of this section should get busy and send him an invitation to come and get one of the many said to be roaming the woods hereabouts.

THE North Dakota potato crop is said to have beena complete failure this year owing to the late spring followed by dry weather, while in the Red River valley the crop is one of the best known for years.

DURING the past two years 265,000 acres of government land have been taken up in the northern part of the state. If the same demand continues there will be no vacant government lands in Minnesota three years from now as there are but 514,000 acres remaining.

IF Minnesota should send a Bryan delegation to the national democratic convention with Gov. Johnson at the head of it it might increase his popularity to that pitch where Bryan would feel under obligations to give a him cabinet position—provided Bryan's election followed.

RUM river flows tranquilly by Anoka and has for many years, but with the advancement of things the Stillwater Gazette says the temperance people of that city want the name changed to Mille Lacs, thinking there is much in a name and that the one suggested will have a more sober sounding.

THE government has decided not to make additional annuity or other payments to Indians at Mille Lacs and in future all Indians living in that locality will have to go to White Earth to receive any benefits they may have coming from the government. There are still many Indians in that section who seem to be loth to leave the home of their fathers for a life at the reservation at White Earth

A REPORT from the consul at Bergen says that in the first quarter of 1907 there were sent from the United States to Norway through the post 55,800 remittances, the total of which was $1,374,840. The money is sent mainly by people who have emigrated from the old country to America to the "old folks" and relatives whom they have left in the far off land.

THE state oil inspector has resigned and Gov. Johnson has named W. E. McEwan as his successor. Mr. McEwan is an alderman of the city of Duluth and editor of a labor paper there and is a prominent factor in labor circles. The democrats seem elated over the strengthening of the governor's cabinet by this appointment which they think is a very wise move. It is said that Mr. McDermott, the retiring official, goes east to accept a more lucrative position.

STATE BOARD MAKES CHANGES

Board of Equalization Makes Changes in Crow Wing County Values

HOUSEHOLD GOODS ARE RAISED

Material and Manufactured Goods of Pulp Mill Gets Raise of 75 per cent

J. F. Smart, county auditor, has received the final returns from the state board of equalization. The board raised all cows in Crow Wing county 10 per cent, all two year old horses the same amount and all household goods and wearing apparel 25 per cent.

Manufacturers material and manufactured goods in the first assessment district were raised 75 per cent. This applies to the pulp mill, it being the only concern in that district.

In reductions the retail merchants in Brainerd were treated to a lowering of 10 per cent on their stocks of goods. The bank stocks were also reduced 10 per cent. These were raised 10 per cent by the county board of equalization, contrary to the state law fixing their valuation and the state board reduced them so as to conform to the statute.

The auditor also received instructions as to the values to be placed on the iron mines taxed in Crow Wing county, including three, one in the town of Klondike and the others in Nokay lake. There seemed to be no mention of the mine or shaft in Rabbit lake. The values ranged from $6,000 to $12,000 and covered from two to four descriptions of land each. One was the Pickands Mather shaft, one the Gulberg property and one was owned by Cuyler Adams and associates.

Henry E. Jones, of Tampa, Fla., writes: "I can thank God for my present health, due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good till I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back and shoulders. I am 62 years old and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney remedy.—H.P. Dunn.

OLD LANDMARK BURNED

School House in District No. 5 Destroyed by Fire Friday Night Without Known Cause

The log school house in district No. 5, one of the oldest school buildings still in use in the county, was destroyed by fire Friday night. When the fire was discovered about midnight by P. H. S. Aspholm, who lives near by, the roof was falling in. The teacher left the building at 3:30 Friday afternoon and the cause of the fire is an utter mystery.

A Card

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe cough and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes.—H. P. Dunn.

To Holders of City Orders

All city warrants bearing date prior to April 1st, 1907, are hereby called in for payment and all interest will cease from and after this date.

Brainerd, Minn., Oct. 9, 1907.

JUDD WRIGHT,
City Treasurer.

109t6

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Dr. Thomas' Eclectric Oil instantly relieves the pain—quickly cures the wound.

BRAINERD VS LITTLE FALLS

Brainerd Boys Downed the Little Falls Football Team Saturday to the Tune of 5 to 0

It was a hard contested game that 500 bootball enthusiasts witnessed last Saturday afternoon on the McKay field between our home team and Little Falls, Brainerd boys winning out by a score of 5 to 0.

Ideal football weather added much to both players and rooters, the latter showing much enthusiasm when either team made a brilliant play.

Little Falls brought to Brainerd a team as strong and heavy as ever formed an opposing team to our home players, but were kept on the defensive from first to last, the superior all round playing of the Brainerd team winning the victory.

Sometimes the game was fast, at other time slow, kicking, linebucking, fumbling and off-plays with heavy penalizing together with referee disputes added much spice to both halves. While more penalties were paid by the Little Falls boys, the concensus of opinion is that our boys at times did not play up to their regular standard.

Among the home players who distinguished themselves were Quinn Parker, Jim Alderman and Conny Ousdahl, "Cool Quinn Parker's" accurate forward pass throwing being especially good.

"What our fellows lack," said an old player, "is something more than signal practice." "A strong scrub team should be sent up against them once or twice a week, and then, in my judgment, with the coach they now have, they would make a formidable team."

One regret concerning the Little Falls team was expressed by the Brainerd boys, that they knew so little about the rules of the game which caused long winded disputes.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catareh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strenhth by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address; F. J. CHENEY & CO., Toledo, O.

Take Hall's Family Pills for constipation.

CONFIRMATION SERVICES

Bishop McGolrick Confirmed Over Two Hundred at St. Francis Church Sunday

St. Francis church was crowded to the doors yesterday forenoon to witness the ceremony of the confirmation of a class of over two hundred, most of them boys ond girls, though there were several young women in the class.

High mass was sung by Father Weurm, of Aitkin, assisted by Rev. Father Bossus, of St. Mathias, Rev. Father Julius, St. John's College, near St. Cloud, and Rev. Father O'Mahoney.

The address of Bishop McGolrick to the class was replete with good advice delivered to them in fitting words and carried a good lesson to others as well. The music, as is always the case at St. Francis church in such occasions, was very fine.

Notice to Our Customers

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults.—H. P. Dunn.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripe, sicken, weaken the bowels and don't cure. Doan's Regulets act gently and cure constipation. 25 cents. Ask your druggist.

The Genuine

ROUND OAK

heating stove is the best stove made—any one who has ever used one will tell you this is true. It has friends everywhere. It is different and it is better than other stoves and you will get out of a ROUND OAK a great many good things that no other ever did or can do. If interested, call in and see the stove with a reputation. Look always for the name ROUND OAK on the leg and door; only the genuine has it.

Slipp-Gruenhagen Co.

217-219 Seventh Street South.

TWENTY YEARS AGO

Grover and the Brainerd boys had a jolly time together Monday.

As we expected Motley not only aspires to be the county seat of Cass county, but claims it will be after the next general election.

The potato crop in Crow Wing county is considered good, while that of Morrison county is a failure.

Dr. Groves is again in a critical condition.

Dave Slipp has gone into the hardware business in Minneapolis.

Arthur Farrar went to Detroit Monday as a witness in a highway robbery case.

Miss Ethel Hagadorn, formerly of this city, was recently married at Duluth to C. A. Whiteman.

John Bishop was fined $500 and 30 days in jail for selling whisky to Indians. It comes high but some will have it.

Arthur McMullen, a Northern Pacific operator of this city, is confined to his bed with a severe attack of malarial fever.

F. A. Thornwiste now wears the fish belt. He caught a 40 pound fish in Mission lake Tuesday. It was sent to Minneapolis parties.

T. A. Martin caught a 20 pound muskalonge at the dam Sunday.

On Sunday last occurred the death of Mrs. N. W. Wheatley, after only a few days illness.

Mrs. Mary J. Adams, the mother of R. K. Whiteley, of this city, died at her home in Jacksonville, Ill., Oct. 11.

Henry Robson and Florence Cutler were married at the Episcopal church Oct. 12, and were afterwards given a reception at the home of Mr. and Mrs. Ed. Brehaney.

The ground froze last night for the first time this fall.

A. E. Losey, J. C. Congdon, C. W. Grenell, Geo. F. Leopold, R. F. Walters and N. H. Ingersoll went to Verndale Wednesday evening to assist in the institution of an Odd Fellows lodge at that place.

Auditor Vossberg, of Sterns county, issued over $75 in gopher bounties in one day this week.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package.—H.P. Dunn.

A Wonderful Dog.

I ran a news stand at Port Jervis, N. Y. I owned a common shepherd dog which was a very intelligent animal and was of great assistance to me in the newspaper business, running across the street with papers in his mouth to customers. He attracted much attention, and he got me many new customers, for everybody liked him, he was such a business dog.

I was sick one day and not able to sell my papers. My dog came in my room where I lay in bed. He fumbled around in my pants pockets and took the keys to my news stand and ran out of the house, and the first thing I knew he had the newspaper stand opened up and doing business.

He was very clever in making change, changing five and ten dollar bills without a single mistake, working the cash register with his paws, and everything ran smoothly until a man came up and passed him a lead quarter. My dog got mad and lost his temper entirely, and I was forced to interfere. With much trouble I managed to pull them apart.

If this dog had not had such a quick temper I would have started him in business for himself. This dog is still living.—Boston Post.

Crushed by Beecher.

Henry Ward Beecher was once approached by a young man who considered himself very clever.

"Do you know, Mr. Beecher," said he, "I've been thinking that I would settle down. Now, I like your preaching, but when I go to your church and see such men as old S. and others, grasping skinflints and hypocrites to the core, sitting there in full membership, why, the thing is just a little too much for me, and really," he added, "I cannot join."

"Well, you're right," said Mr. Beecher. "Every church has such men, and I fancy Plymouth is not free from them, and until you spoke I have always wondered why the good Lord permitted it. Now I understand."

"Ah," gurgled the young fellow, "I am glad I have thrown light on the question! What strikes you as the reason, Mr. Beecher?"

"Well," replied the great preacher, "it is permitted in order to keep just such fools as you out of the churches."

Looked That Way.

"I don't think she'll ever marry him," said Mrs. Henpeck. "She quarrels with him so and is so domineering that"—

"She is?" interrupted Henpeck. "I'll bet they've been secretly married already!"—Philadelphia Press.

Present Administration to Stay

The New York Life Insurance company has filed nominations for directors to be elected at its annual meeting in April next. It is announced that there will be no opposition ticket. The present administration seems to be giving general satisfaction. 1t

FARMERS ARE PROSPEROUS

Morrison County Farmers Getting More for Wheat Crop Than on Previous Years

SPECIAL TO THE DISPATCH.

Little Falls, Minn., Oct. 14.—Local farmers were paid $13,044 the first seven days in October for their wheat. As compared with the corresponding period in 1906, the farmers received $6,783 more in cash. From Oct. 1 to 7, inclusive, in 1906, the Northwestern and Little Falls Milling companies paid out only $6,260.95.

More wheat is being marketed this year than last. In the period referred to in 1906, the price of wheat ranged from 65 cents to 67 cents a bushel. In 1907 it brings from $1 to $1.07, or from 35 to 40 cents more. For the first seven days of October, in 1906, 3,346 bushels were bought; for the same period in 1907, 8,527 bushels have been purchased.

—o—

The same condition of affairs is said to exist here. While perhaps not as much grain is raised here, farmers are benefitting equally in the matter of high prices and those having produce of any sort to dispose of are getting good returns.

No home is so pleasant, regardless of the comforts that money will buy, as when the entire family is in perfect health. A bottle of Orino Laxative Fruit Syrup costs 50 cents. It will cure every member of the family of constipation, sick headache or stomach trouble.—H. P. Dunn.

Notice

I hereby give my son, Fred Guyett, his time during his minority and will claim none of his wages and will pay no debts of his contraction after this date. MRS. L. J. GUYETT.

Brainerd, Minn., Oct. 11, 1907.

CORNISH DIALECT.

Some Quaint Terms That Are Common Among the Natives.

"A hitched my foot in the sconce and knacked my nuddick, and A wadn't able to clunky for a fortnight."

Readers of dialect tales will probably take it for granted that this sentence is Scotch. It is, however, Cornish and, being interpreted, means, "I caught my foot in the pavement and struck the nape of my neck, and I was not able to swallow for a fortnight."

There are some quaint terms common in Cornwall which have a pleasing savor of their own. The phrase "my dear"—prolonged to two syllables—is not, for instance, any indication of especial affection. It is a common form of address to either man or woman. So also, though with rather more discrimination in its use, is "my deear life."

A young child is mentioned in terms of endearment as "my 'ansome" or "tender deear" or even "tender worm." "Son" and "sonny" are used without the least relation to the age or sex of the person addressed. A son may sometimes be heard speaking to his own father as "my son" or a husband calling his wife "sonny."

"Young" means simply unmarried. A bachelor of eighty is "a young man." Of a bride still in her teens it was said that she was "a pretty lot better looking than when she was young." An old person is not simply old. He is "old ancient." Several New England localisms are found in Cornish speech, as "cricket" for a small stool, "chores" for household jobs and "dowdy" for pudding, though in America the latter word survives only as part of "pandawdy," the delicious deep spiced apple pie of country housewives.

A Cornish anecdote relates that a small boy left at home to supervise the family dinner while the rest of the household were at church, having, like King Alfred, neglected his duty and allowed the fig pudding to scorch, in his dismay ran to the church and from the doorway made signs to the housewife to come forth. She indignantly signed him to wait, which for a time he did, but at length, becoming impatient, cried aloud in reply to her further winks and grimaces, to the scandal of the startled congregation:

"Yiew may winky and skrinky as long as yiew du plase, but the figgy dowdy is burnt gin the crock!"—Liverpool Mercury.

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Burdock Blood Bitters cured me."—J. H. Walker, Sunbury, Ohio.

The Richest.

That country is the richest which nourishes the greatest number of noble and happy human beings; that man is the richest who, having perfected the functions of his own life to the utmost, has also the widest helpful influence, both personal and by means of his possessions, over the lives of others.—John Ruskin.

A Philosopher.

Frances Willard once wrote to a friend who had just lost a daughter: "Dear Sister Anna, how much richer are you than I! Here I sit alone without a child to die, while you are mother to an angel."

The Hat Scale.

A fifty dollar hat is a conceit.
A thirty dollar hat is a confection.
A two dollar hat is a sin and a shame and a perfect justification for going home to mother.—Pittsburg Post.

MUSIC AND DRAMA

Coming Attractions

Oct. 16—The College Widow.
Oct. 28—The Human Slave.

"The College Widow"

Few dramatic authors are capable of depicting equally well both male and female characters. Ggeorge Ade is an exception. "The College Widow" is replete with realistic types of students, the girl characters being no less well drawn. For instance, consider Jane Witherspoon, the college widow. She is a production in mimic form of a living and breathing personality. Bessie Tanner, the athletic girl, is an excellent example of a type of modernity; drawling Sally, placid Josephine, Bertha the kodak fiend; and Mrs. Primley Dalzelle, the reliable chaperone, are all taken from life. Last, and, possibly the greatest in this gallery of portraits is the boarding-house keeper's daughter, Flora Wiggins, she of social ambitions, but bad execution. All college students have met the "College Widow" girls in real life, and recognize them as old and dear acquaintances. Opera house Wednesday, Oct. 16.

* * *

"Quincy Adams Sawyer"

Quincy Adams Sawyer at the opera house Saturday night gave very good satisfaction to the audience. In some characters it was much stronger than when here last, but in others there was no improvement. The corn husking bee was especially an improvement over the previous season.

* * *

"Bijou"

The Bijou offers the first three days this week as a headliner something out of the ordinary run of moving pictures "Automobile Racing," a film 1,000 feet long and of intense interest from begining to finish. Then comes "The Hagenback Animal Show" taken at the Jamestown Exposition this summer, interesting in the extreme. Patrons of this popular little theatre should make a special effort to witness these shows as the entire program is pleasing and instructive.

Don't let the baby suffer from eczema, sores or any itching of the skin. Doan's Ointment gives instant relief; cures quickly. Perfectly safe for children. All druggists sell it.

A Big Boiled Dinner.

Cooks in large hotels and boarding houses may think they get up meals on a big scale, but when it comes to wholesale cookery the little village of Liss, on the London and Southwestern railway, England, surpasses them all. At a barbecue held there some years ago an ox was boiled, not roasted, whole, and this is how it was done: A large hole was dug in the ground and lined with brick. Inside this a tank large enough to hold the ox was built. The carcass was then lowered into the tank, having first been placed in a case formed by heavy crossbars, to which chains were attached. Pulleys from a scaffolding above were used to raise and lower the ox. Many vegetables, such as carrots, onions, cabbages and potatoes, were boiled with the meat. The boiling required seven hours.

Not Quite Clear.

A well known clergyman of Boston was once talking to some friends with reference to the desirability of chronological coherence in ideas in the form of written statements, when he observed that there are times when this method becomes a trifle too suggestive.

"For instance," said the speaker, "I once heard a minister in New Hampshire make his usual Sunday morning announcements as follows:

"'The funeral of the late and much lamented sexton takes place on Wednesday afternoon at 3 o'clock.

"'Thanksgiving services will be held in this chapel on Thursday morning at 11 o'clock.'"—Lippincott's.

Bituminous Coal.

Shortly after the adoption of bituminous coal as a fuel in England a royal proclamation was used forbidding its use and authorizing the destruction of the furnaces of the users, who were characterized as evil doers. Scarcity of fuel, it seems, shortly compelled the resumption of its use. In the reign of Elizabeth bituminous coal was again prohibited during sessions of parliament lest the health of the members suffer thereby.—London Telegraph.

THEODORE HOOK.

Stories of the Greatest Practical Joker of His Day.

Of the list of geniuses the name of Theodore Hook is near the top. At sixteen he was making a big income and enjoying great popularity. His name was blazoned in the papers as a prodigy, his portraits were in the shop windows, and he had free admission to all theaters and other places of amusement. For years he was a social and literary lion. His last words were: "It is only to the grave that I must be carried. If my poor children were safe I would not care. I am suffering under a constant depression of spirits which no one who sees me in society dreams of."

Hook's practical jokes were the talk of the day. His intimates egged him on continually, and there was nothing he would stop at. One day they pointed out to him as an appropriate specimen for his museum a gilded eagle of enormous dimensions which had just been erected over a grocer's shop. A few weeks afterward while entertaining his coterie at dinner at one of the old taverns he ordered the "game" to be served. To the astonishment of the guests the waiter entered the room staggering under the burden of a dish of unusual size. On uncovering it there was produced the identical eagle which Hook as a practical joke had contrived to carry off. Merely for this sort of fun Hook used to pull off knockers and bell handles, carry away tradesmen's signs, overturn the boxes of sleeping janitors and do other devilment until he had a roomful of household attachments and street ornaments.

One night Hook was passing a great house where there was a reception of the swellest of the swells. Dinner had just been announced. He said to the friend accompanying him: "John, I'm going in here to spend the evening. Call for me at 11 o'clock." The friend was horrified. Said he in protest, "You do not know these grand people, and you are not an invited guest." "That's all right. Call for me at 11." Knocking at the door, he gave his hat confidently to the lackey and was ushered upstairs. Entering the drawing room, he affected at first to have discovered his mistake and poured such sallies of wit that the host and hostess actually pressed him to stay for dinner.

At 11 o'clock, when his friend called, not knowing whether he would find Hook at the reception or in the lockup, he was more than astounded on entering the drawing room to see Hook seated at the piano delivering some extempore poetry to a bevy of the fairest women in the gathering. Perceiving the entrance of this friend, the practical joker, who had not hitherto divulged his name, arose and said:

"I'm very much pleased with your fare,
Your cellar's as good as your cook;
My friend's Mr. Terry, the player,
And I'm Mr. Theodore Hook."

The king, being present and full of enjoyment, took a great fancy to Hook and immediately appointed him treasurer to the island of the Mauritius with a salary of $10,000 a year.—New York Press.

All Alone In That Class.

Mr. Hunker—I have merely a speaking acquaintance with Miss Throckmorton. Mr. Spatts—You are very lucky. All her other acquaintances are listening acquaintances.—Stray Stories.

Sophomore Clothes

Are college styles designed particularly to interest young men who desire original and snappy clothes.

Both models and styles of fabrics are exclusive.

You'll find them to be considerably out of the ordinary and an entirely new departure in clothes making.

Made as clothes should be made by Leopold, Solomon & Eisendrath, Chicago. Sold by one good clothier in your city.

Who's your Tailor?

Most men are *not* of average build, therefore

Your clothes should be made for *you*—in any one of our thirteen designs of sack suits!

Outing suits, Frocks, Prince Alberts, Short Box or Fly Front overcoats, Raincoats, Full Dress or Tuxedo!

Twenty-five styles and 500 all-wool cloth patterns to show you!

And at about the same price you would have to pay for ready-made clothing!

The suits we turn out are our best references.

Come in and see us.

THE DAILY DISPATCH

All Type New and Up-to-Date

OVER A SCORE DEAD

Twenty-One Persons Perished in Lake Superior.

STEAMER CYPRESS SINKS

Only the Second Mate of All Those on Board the Ill-Fated Vessel Managed to Escape—Nineteen Bodies Have Been Recovered.

Sault Ste. Marie, Mich., Oct. 14.—The bodies of nineteen members of the crew of the steamer Cyprus, which foundered in Lake Superior Friday night off Deer Park, have been recovered and brought to this city. Second Mate C. J. Pitz of Manitowoc, Wis., the sole survivor of twenty-two people who were on the ship, arrived here on the tug Schenck, which brought the bodies from the Deer Park lifesaving station. The bodies of Captain F. B. Huyck and two firemen whose names are not known are still missing.

Mate Pitz, who has somewhat recovered from the exposure and battering he received from the waves while being washed ashore on a life raft, gave out when he arrived here the first correct list of the crew of the Cyprus. They are as follows:

F. B. Huyck, Sheridan, N. Y., captain; I. N. Smith, Cleveland, first mate; C. J. Pitz, Manitowoc, Wis., second mate; Chester Anderson, Jamestown, N. Y., wheelman; George D. Welle, Kelly's Island, O., wheelman; George Thorn, Sault Ste. Marie, Mich., watchman; C. Reuterberg, watchman; J. J. Norcross, Tonawanda, N. Y., chief engineer; W. L. Smith, second engineer, Cleveland; William Chambers, oiler, home unknown; —— Spencer, oiler, home unknown; —— Myers, fireman, home unknown; William Dundon, Niagara Falls, steward; Mrs. William Dundon, Niagara Falls, second cook; Frank Eisenbach, Barney McConville, Gene Marquette, Tom McCarthy, deckhands, homes unknown; two deckhands from Canton, names unknown; two firemen, names unknown.

LAKE STEAMERS COLLIDE.

One of the Vessels Sunk and One Man Is Killed.

Detroit, Oct. 14.—One man was killed and the steel steamer John W. Moore was sunk in a collision between the Moore and the Queen City in the Detroit river just above Lime Kilns crossing. The Queen City is at the Ecorse yards of the Great Lakes Engine works with her bulwarks flattened to the deck and her forepeak filled with water. The two steamers met almost head-on and the Queen City crushed in the bows of the John W. Moore as far back as the pilot house. Wheelsman Duncan McIntyre of Sombra, Ont., was asleep in his room on the port side of the Moore and was crushed to death in the collision and his body carried down with the steamer. It was recovered by a diver.

Little can be learned about the cause of the accident, as the crew of neither steamer will talk. The Moore was up-bound with coal and the Queen City was bound down, towing the barge 132, both ore-laden. The Moore is owned by Frank M. and M. O. Osborne of Cleveland and is 246 feet long. The Queen City is owned by the Pittsburg Steamship company. The Moore is close to the channel and vessels are warned to be careful in passing.

MEXICAN CONSUL ATTACKED

Beaten by a Deputy Constable on a Street Car in El Paso, Tex.

El Paso, Tex., Oct. 14.—Francisco Mallen, consul of Mexico at this place, was attacked and badly beaten on an El Paso street car by Juan Franco, a deputy constable. This is the third time that Franco has attacked Mallen, whom he blames for having secured the release of a rurale who had killed a kinsman of Franco.

Franco placed Mallen under arrest and lodged him in jail. He was released on bail. The matter of the previous assault that was made upon him by Franco was taken to the state department at Washington by Consul Mallen.

NEGRO KILLS HIS NEIGHBOR

Murderer Defies Arrest and Is Killed by a Posse.

Texarkana, Ark., Oct. 14.—Angered, it is understood, because of a belief that his neighbor, E. M. Summer, a white man, had persuaded his landlord to order him to vacate because of his color, Monroe Ballard, a negro, shot and killed Sumner. Barricading himself in his house after the shooting, Ballard defied arrest and fired on a posse who made an effort to take him into custody. The fire was returned and the negro riddled with bullets.

Woman Takes Deadly Acid.

St. Paul, Oct. 14.—Mrs. Minnie Wolcott, forty-nine years old, who was staying with a sister at 57 Twelfth street, died at St. Joseph's hospital Sunday evening as the result of sulphuric acid poisoning. She drank the poison about 11 o'clock in the morning, and from then until the end suffered terribly. She came from Chicago last August to take treatment for nervous trouble and it is thought she took the acid while temporarily insane.

CHICAGO IS VICTORIOUS.

Defeats Detroit and Wins the World's Championship.

Detroit, Oct. 14.—The Chicago National league baseball team at Bennett Park won the world's championship, defeating the Detroit American league team by the score of 2 to 0.

It was the fourth successive victory for the Chicago team in as many days. Taking advantage of every slip made by the local players and running the bases cleverly, they scored two runs in the first two innings, while the Detroit team did not succeed in getting one man over the home plate.

The "rooters" who had followed the Chicago team from their home city swarmed down to the diamond when the ninth inning closed and showered the players with congratulations. Then several hundred of them formed in line and marched down Michigan avenue, headed by a band, cheering and singing in celebration of their victory.

It was a disappointing day for the local team in more ways than one. The weather was raw and cold, entirely unfit for baseball, and the attendance was only 7,370.

Mullin and Brown both pitched well, but the Chicago man received stronger support from his teammates. Also, Brown was steadier than Mullin, giving but one base on balls to Mullin's three, one of which developed into a run in the first inning.

In an effort to check the base stealing of Chicago, Manager Jennings sent in his colt catcher, Archer, to receive Mullin, but the Chicago men succeeded in stealing four bases from him, stolen bases figuring materially in the scoring of both their runs.

President William H. Yawkey of the Detroit club added as a gift to his players for winning the American league pennant $15,000 to their share of the receipts from the world's series, making $36,973.36 which the local players will divide. The total attendance at the five games which were played in the series was 78,086 and the gross receipts $101,728.50. The receipts were divided as follows. National commission, $10,172.85; Chicago and Detroit baseball clubs, $18,311.13 each; Chicago National league team, $32,960.03; Detroit league team, $21,973.36.

Copper Mines Closed.

Saltillo, Mex., Oct. 15.—The slump in the price of copper has closed a large number of mines not only in the southern portion of the republic, but in this section as well. A number of large mines have reduced their output exactly one-half, while the smaller ones have closed down entirely.

Engineer Killed and Fireman Hurt.

Duluth, Oct. 14.—George F. Birch, aged twenty-four years, a locomotive engineer, was killed, and his fireman, Frank Gospeter, aged twenty-three years, was fatally hurt in a wreck on the Missabe road at the Missabe ore dock approach in this city.

Austrian Emperor Very Ill.

Vienna, Oct. 14.—Although Emperor Francis Joseph's condition Sunday morning was regarded as slightly better, it again became worse during the day. His physicians now fear an attack of lobular pneumonia. The emperor's fever is higher.

TELEGRAPHIC BREVITIES.

Minnesota defeated Ames by a score of 8 to 0 in the first football game of the season at Minneapolis.

The Hopkins block, in the business section of Lexington, Va., has been destroyed by fire. Loss, $60,000.

Orlando Sabina was caught in the elevator at the Graffin Wheel works at St. Paul and died instantly from a broken neck.

Anton Kirshmeier fell down the elevator shaft in the building occupied by the St. Paul Hardwood Door company at St. Paul and was taken to the city hospital in a dying condition.

FIGHT AGAINST HARRIMAN.

Stuyvesant Fish May Carry It Into Court.

Chicago, Oct. 14.—It is possible that the struggle for the control of the Illinois Central railroad between Stuyvesant Fish and E. H. Harriman may be taken into the courts.

The attorneys of Mr. Fish are engaged in the preparation of a petition asking the courts to enjoin any person or corporation from voting any stock in the annual meeting, to be held Wednesday next, which may be shown to be owned or controlled by the Union Pacific railroad. The action, it is said, will be brought under an Illinois statute which prohibits one corporation from owing stock in another. The attorneys for Mr. Harriman have already declared, in view of possible proceedings along this line, that the Illinois Central by reason of its special charter, would be exempt from the operation of this law even if it were not a fact that the railroad corporations are by implication exempt from its operation.

It is understood that it is the intention of Mr. Fish to obtain a temporary injunction by which the annual meeting will be delayed until the court can pass on the important question involved in the present dispute.

William Nelson Cromwell, formerly of the Panama canal commission, is said to be en route for Chicago in order to take charge of the Harriman interests if a legal battle should be precipitated.

Mr. Fish was closeted for several hours with his attorneys, but would neither affirm nor deny the report that he was about to instigate proceedings to restrain the Illinois Central stockholders from holding their annual meeting.

WILL NOT MOVE CAMP.

President Roosevelt and Party Find Fresh Bear Signs.

Stamboul, La., Oct. 14.—The whole countryside turned out Sunday in expectation of seeing the president take his departure from Stamboul for the South, but in view of his change of plans was, of course, disappointed. There was general expression of satisfaction, however, over his reconsideration of his determination to move to Tensas parish for, now that the change is not to be made, Stamboul confesses candidly that she would have much chagrined to have her distinguished visitor go away with an empty bag before the time originally fixed.

General confidence in his success in the new camp on Bear lake continues buoyant and the reports from there are uniformly favorable. Indeed, it is stated that a number of fresh trails were discovered Saturday and that on one occasion the party came upon a good sized bear but that on account of the absence of dogs he made his escape. The hope is very strong that when the hunt is resumed either this animal or another member of his family will soon be run to earth. Many of the dogs used in last week's strenuous search of the barren up-country are reported to be badly lamed and that an effort is being made to replace them with fresh animals.

It is not believed by the president's associates that he will now make any change, but he has made no plans. All will depend upon the developments early in the week. There is no doubt of the presence of the game now, but it is very shy and may disappear in the presence of the hunters as it did from the Monticello camp.

A Changed Bird.

An Irishman who wasn't much of a hunter went out to hunt one day, and the first thing he saw to shoot at was a bluejay sitting saucily on the top of a fence. He blazed away at the bird and then walked over to pick it up. What he happened to find there was a dead frog, which he raised carefully at arm's length, looking at it with a puzzled air. Finally he remarked, "Well, begobs, but ye was a foine looking burd befur Oi blew ther fithers off o' yersel'"—Judge's Library.

John Coates Liquor Co.

"Beauty Spots" on Wrists Now.

"What a queer little bug!" thought a nearsighted woman in a New York "L" car the other day as her gaze through glasses fell upon a tiny black object on another woman's wrist, says the New York Press. "It looks six sided and flat, and it seems to be burrowing into her skin." And the good hearted woman actually bent forward to make a swoop at the strange entomological specimen. But as the movement brought her pince-nez nearer to the wrist she suddenly changed her mind, stiffened up and turned her gaze to the nearest window. The "bug" was a tiny bit of court plaster. The little facial "patch" of wigs and powder days has been revived in Paris, but transferred to the wrist. The small black bit of court plaster is employed to bring out the whiteness of the back of the hands. If a woman's wrist is thin and ugly the plaster may be placed on the back of the hand, near the little finger. It is a fine example of democracy in adornment, for properly placed it will thrust a diamond on the same hand into the background.
